Treatment	PLN, Złoty	ca.GBP*	ca. EUR*
<b>Dental Implants, "Implantology"</b>			
<b>Remarks :</b> An implant root could be set on the place of an extracted tooth not earlier than 5-6 months after an extraction. After the setting of an implant root there has to be respected a healing and integration time to the jawbone of around 3 months (lower jaw) and 5-6 months (upper jaw). Therefore the whole implantation treatment will make at least two visits in Gdansk necessary.			
The <b>total price</b> of an implant including implant root, surgical work, dental technician work, standard Titan implant abutment and standard porcelain crown is mentioned here for your price comparison :			
System Alpha Bio ( Israel )	4550	9100
